

"PREDICTABLE FULL MOUTH RECONSTRUCTION WITH BONDED CERAMICS"

An over-the-shoulder course by
MIKE MALONE, DDS, FAGD

Before and after of our patient from the Fall 2009 course.
Restored with e.max lithium disilicate veneers and onlays.

This course will demonstrate an entire full mouth reconstruction using e-Max Press lithium disilicate all-ceramic restorations, from initial examination, case presentation, preparation, and temporization to case insertion. Close-up live video shows all clinical procedures in explicit detail.

GOALS AND OBJECTIVES

- Participants will learn Dr. Malone's techniques for case acceptance for reconstruction patients as well as the planning necessary for smile design and occlusion goals.
- Also learn anterior and posterior preparation techniques for all-ceramic adhesive dentistry.

- Dr. Malone will also demonstrate his techniques for achieving predictable results with every case, every time.
- Details of Radica provisional fabrication and Interra direct night guard fabrication will also be shown.

Previous Attendees of This Seminar Had This to Say

"The best continuing education course I have taken." **Dr. Bill Cummiskey, Connecticut**

"Excellent all around course. Great class size. Instructor (Dr. Malone) welcomes every question and we asked a lot of questions. Highly recommended." **Dr. Mike Szarek, Lowell, MA**

"Great class! Awesome over-the-shoulder course. I have learned a systematic way of approaching full mouth rehabilitations. Beautiful conservative dentistry and beautiful temps and gorgeous final restorations." **Dr. Tannaz Goodjohn, Hollywood, CA**

"All expectations were met and exceeded, i. e. full mouth reconstruction--preparation to final cementation. Camera work and video viewing intra-orally was exceptional. Hands-on delivery of night guard was especially useful. The course exceeded my expectations and suffice it to say Dr. Malone's course was exceptional." **Dr. Sue LeBlanc, Hammond, LA**

Dr. Malone's commitment to excellence in restorative and cosmetic dentistry started early with extensive continuing education with his primary mentors: L. D. Pankey, Pete Dawson, Alvin Fillastre, and Mike Schuster. He received a fellowship in the Academy of General Dentistry in 1988 and is a member of the ADA, American Equilibration Society, the Pierre Fauchard Academy, and the Pankey Alumni Association. After serving six years on the Board of Directors of the American Academy of Cosmetic Dentistry, Dr. Malone was elected to serve as President of that organization for 2003-04. He is also on the staff of LSU as an Assistant Clinical Professor in Prosthodontics. Dr. Malone combines the Pankey/Dawson philosophy of occlusion and predictable restorative results with 30 years experience in adhesive dentistry. Dr. Malone maintains a full-time dental practice with an emphasis on cosmetic and reconstructive dentistry in Lafayette, LA.
